

GIGANT

SWISS CONSULTING

PROUDLY PRESENTS THE ISSUE OF A TRACKER CERTIFICATE ON ITS NEW

HIGH INCOME EMERGING MARKET BOND STRATEGY

Targeted total return (USD): **The current yield to maturity is approx. 8% p.a. in USD**

Payout frequency: **Semi-annual**

Investment horizon: **The selected bonds have a relatively short duration. The trader certificate does not have a maturity date. A daily market for buy/sell orders will be provided. In order to benefit from the strategy, we advice a holding period of at least 12-18 months**

Investment universe: **Strong focus on Turkish Eurobonds (private sector and government bonds)
Other Emerging Market Eurobonds (according to market conditions)**

ADVANTAGES

- **Targeted return of approx. 8% in USD**
- **Semi-annual income distribution**
- **Possibility to participate in a well diversified portfolio of securities which each require a minimum investment of 200'000 USD**
- **Active management style with possibility to hedge interest rate risk**
- **Daily liquidity: product can be bought or sold on daily basis**
- **Product will be listed on Swiss and German Stock Exchange**

INVESTMENT STRATEGY

GIGANT HIGH INCOME EMERGING MARKET BOND STRATEGY, USD invests in a basket of denominated Corporate and Government Bonds in the emerging market.

As Turkey specialists we are strongly focused on the turkish markets

The strategy puts a special emphasis on low investment grade bonds and with relatively short duration. Furthermore, the strategy may invest in bonds that do not have an official credit rating.
